

PHYSICAL SECURITY SYSTEM UPGRADE PROPOSAL

Infrastructure Security Solutions

Proposal Reference:

Date:

Prepared For:

Prepared By:

1. EXECUTIVE SUMMARY

This proposal details the recommended enhancements to the physical security infrastructure at the client's specified facilities. The primary objective is to mitigate identified vulnerabilities, update legacy hardware, and deploy an integrated, centralized security management platform.

2. CURRENT SYSTEM ASSESSMENT & LIMITATIONS

An evaluation of the existing security posture revealed several critical areas requiring immediate remediation:

Existing System component	Identified Vulnerability / Limitation	Proposed Remediation

3. PROPOSED UPGRADES & SPECIFICATIONS

The recommended upgrades focus on transitioning to IP-based physical access control, high-definition video surveillance with edge analytics, and a unified intrusion detection network.

Technology Category	Technical Specifications & Hardware	Quantity / Location
Access Control		
Video Surveillance (CCTV)		
Intrusion Detection		
System Integration		

4. FINANCIAL PROPOSAL & SCOPE OF WORK

The estimated costs detailed below include hardware procurement, system programming, installation, cabling, testing, commissioning, and administrator training.

Description of Deliverables / Services	Cost (USD)
Total Investment:	

5. AUTHORIZATION & SIGN-OFF

By signing below, the parties agree to the scope of work, terms, and conditions outlined within this upgrade proposal.
