

# R&D PROJECT COST INVOICE

Tax Credit Compliant Breakdown

|                           |                        |
|---------------------------|------------------------|
| Invoice Number            | Tax Claim Period       |
| Invoice Date              | Payment Due Date       |
| R&D Scheme Reference      | Project Reference Code |
| SERVICE PROVIDER (ISSUER) | CLIENT / R&D CLAIMANT  |

|                      |
|----------------------|
| R&D PROJECT OVERVIEW |
| Project Title        |
| Technical Objective  |
| Uncertainty Resolved |

| R&D COST CATEGORY & DESCRIPTION                  | RESOURCE / STAFF ROLE | GROSS COST (\$) | R&D QUALIFYING % | ELIGIBLE R&D COST (\$) |
|--------------------------------------------------|-----------------------|-----------------|------------------|------------------------|
| Direct Staff Cost: R&D Engineering / Development |                       |                 |                  |                        |
| Direct Staff Cost: Project Architecture & Design |                       |                 |                  |                        |
| Subcontracted R&D Activities                     |                       |                 |                  |                        |
| Software Licenses (Dedicated R&D Environment)    |                       |                 |                  |                        |
| Materials & Consumables Used in Prototypes       |                       |                 |                  |                        |

|                          |
|--------------------------|
| Total Gross Invoice Cost |
| Non-Qualifying Costs     |
| Total Eligible R&D Cost  |

|                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| TECHNICAL ACTIVITY & R&D DECLARATION                                                                                                                                                                                                                                                                                                                                                                                                    |
| We hereby declare and certify that the breakdown of activities and associated costs presented in this document represents work carried out directly in the resolution of scientific or technological uncertainty. The apportionment percentages represent accurate estimates of time and resources dedicated specifically to qualifying Research and Development activities in accordance with relevant national tax credit guidelines. |
