URBAN STORMWATER DRAINAGE DESIGN MANUAL

Prepared For:

Prepared By:

Date of Issue:

Revision Number:

Table of Contents

1. Introduction and Policy Statement

2. Hydrologic Analysis and Design Flows

3. Hydraulic Design of Street Drainage and Inlets

4. Storm Sewer Pipe Systems

5. Detention and Retention Basin Design

6. Water Quality Control and BMPs

1. Introduction and Policy Statement

1.1 Scope and Purpose

1.2 Regulatory Framework

2. Hydrologic Analysis and Design Flows

2.1 Selection of Design Rainfall Events

2.2 Methodologies for Runoff Estimation

Catchment ID	Area (ac/ha)	Runoff Coefficient (C)	Design Return Period (Years)

Catchment ID	Area (ac/ha)	Runoff Coefficient (C)	Design Return Period (Years)

3. Hydraulic Design of Street Drainage and Inlets

3.1 Permissible Spread and Water Depth

3.2 Inlet Capacity Calculations

Inlet Location / ID	Inlet Type	Design Flow (Q)	Intercepted Flow (Qi)
