STORMWATER MANAGEMENT PLAN

1. General Project Information

Project Name	
Site Address / Location	
Operator / Developer Name	
Contact Person	
Phone Number	
Email Address	
Total Site Area (Acres)	
Total Area of Disturbance (Acres)	

2. Site Description & Hydrology

Existing Site Conditions and Land Cover

Proposed Site Conditions and Land Cover

Soil Type and Soil Infiltration Properties

Receiving Waters (Name of nearest waterbodies, wetlands, or storm sewer systems)

3. Best Management Practices (BMPs) for Stormwater Control

Select and describe the Best Management Practices to be implemented on-site:

- [ ] **Silt Fence**
- [ ] **Storm Drain Inlet Protection**
- [ ] **Stabilized Construction Entrance**
- [ ] **Temporary/Permanent Revegetation**
- [ ] **Sediment Basin / Trap**
- [ ] **Concrete Washout Area**

Detailed BMP Implementation and Maintenance Schedule

4. Post-Construction Stormwater Management

Permanent Stormwater Control Structures (e.g., Retention ponds, bioswales, rain gardens)

Long-Term Operation and Maintenance Plan

5. Spill Prevention and Response Procedures

Spill Kit Locations, Reporting Procedures, and Contact Information

6. Plan Certification & Signatures

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted.
